

## Congratulations to MedNet System Users

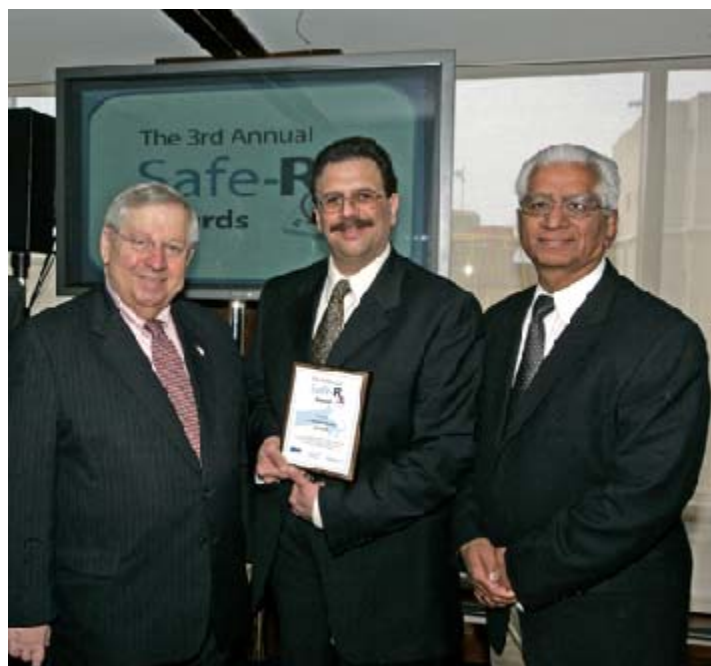

Dr. Guarnieri and Dr. Al-Raqqad,

Honorees of Safe-Rx Award

[www.mednetsystem.com](http://www.mednetsystem.com)

**MedNet System Congratulates Dr. Kenneth Guarnieri of InterMed Associates in Webster, MA and Dr. Ahmad Al-Raqqad of Nardone Medical Associates in Rhode Island For Being Named The Nation's Top Safe-RX Providers**

### **Safe-Rx (Washington, DC – March 4, 2008) –**

In conjunction with National Patient Safety Awareness week, the 3<sup>rd</sup> Annual Safe Rx Awards were held today on Capitol Hill. These awards honored the top 10 states using e-Prescribing along with the top three physicians from each of these states who have demonstrated outstanding leadership and commitment to patient safety through their use of e-Prescribing technology. **MedNet System** was proud to learn that these top e-Prescribing physicians in both Massachusetts and Rhode Island utilize the MedNet System emr4MD software suite. In addition, Massachusetts was ranked No. 1 in e-Prescribing technology for the 2<sup>nd</sup> year in a row.

Senator John Kerry accepted the Safe Rx Award for Massachusetts:

“This dedication to technology and efficiency by the Massachusetts care providers, physicians and pharmacists who have earned this honor is testament to their sincere concern for patient safety and a real commitment to saving lives.” Former House Speaker Newt Gingrich said

“Everyone knows that E-Prescribing saves lives, is much more efficient, allows for better outcomes and reduces costs for everyone.

We should all be encouraging our physicians to use this kind of practical technology to protect their patients.”

### **Promoting Patient Safety through [emr4MD](#)**

For patients, e-prescribing means a safer and more efficient prescribing process – no more lost prescriptions, no more trips to the pharmacy to drop off prescriptions and no more illegible handwriting for pharmacists to interpret.

As an early adopter of e-Prescriptions, MedNet System supports these electronic medication and safety protection measures and has emphasized e-Prescribing as a key component of the emr4MD software suite. As Dr. Guarnieri mentioned during the Award Ceremony, this focus on patient safety, efficiency and usability has distinguished emr4MD: “I am honored to have received the Safe-Rx Award. The use of emr4MD by Mednet System was instrumental in winning this award. It is user friendly and intuitive software that has significantly improved my efficiency and enabled me to treat my patients more effectively.”

### **Learn More About e-Prescriptions and [emr4MD](#)**

Physicians who want to learn more about how they can help their patients via electronic Prescriptions, please register for a free demonstration of the emr4MD product at:

[www.mednetsystem.com](http://www.mednetsystem.com).

Dr. Ahmad Al-Raqqad of Nardone Medical Associates in Pawtucket, Rhode Island reiterated the impact of electronic systems on medical care: “The ease and time saving capability which e- Prescribing allows me and my staff has become an integral asset to our busy practice.”

Improved efficiency and quality of medical care drives the vision of MedNet System. As Dr. Ishwara Sharma, President of MedNet System said, “This award to the physicians using our system, emr4MD, validates our principles of providing cost effective and user friendly solutions so that our customers can do their job efficiently. We at MedNet System are confident in our approach, and will continue our efforts to improve medical care and reduce the administrative burden of physicians throughout the country. We are proud of the hard work our customers have done to receive these awards, we share their visions and we congratulate their efforts.”

### **About Mednet System [emr4MD](#)**

Mednet System is a leading provider of Electronic Medical Records, Medical Billing and Technology Solutions for physicians, hospitals and Independent Physicians Associations (IPA’s).
